### Advanced Social Alarm Solution

PERS+

**Seniors' peace of mind with high reliability**

Utilizing both passive and active alerting features, the system is also expandable with additional sensors such as fire and water leak detectors, allowing Service Providers to customize and scale their offering.

### Customizable Home Activity Monitoring Solution

Family

**Enabling the family to actively care for their loved ones**

Easy to install and set up, brings customized care for your loved ones, allowing family members to keep abreast of elderly relatives who require partial or full daily monitoring.

### Analytics Based Home Activity Monitoring Solution

Pro

**Enabling prevention of senior's possible deterioration**

A paradigm shift in elderly care, providing passive, seamless monitoring analysis of behavioural patterns. Alerts family members and care providers when help is needed. Passive fall detection when pendant isn't worn.

## Innovative Alerting Solutions

Add real value to SECURELY for Independence solutions by offering your customers new ways of receiving help even when they are most distressed

### VPD

With Intelligent  
Voice Recognition

Calling for help without picking up the phone
